Version Number 5

Page 1/10

Printing date 23.01.2018

Revision: 23.01.2018

SECTION 1: Identification of the substance/mixture and of the company/undertaking

· **I.1 Product identifier**

· **Trade name:** Boraxin

· **Article number:** AL141.000 – AL141.500 – AL141.5L

· **I.2 Relevant identified uses of the substance or mixture and uses advised against**

· **Application of the substance / the mixture**

· **I.3 Details of the supplier of the safety data sheet**

· **Supplier:**

Bullnheimer & Co. GmbH & Co. KG

Im Tal 12

D-86179 Augsburg

Tel. +49(0)821/80850-0

Qualified person acc. regulation (EG) No. 1907/2006:

info@bullnheimer.de

· **Further information obtainable from:**

· **I.4 Emergency telephone number:**

Bullnheimer & Co. GmbH & Co. KG

Tel.: +49(0)821 / 80850-0

Outside business hours:

Informationszentrale für Vergiftungen – Giftinformation Center Mainz

Tel.: +49(0)6131/19240

*

SECTION 2: Hazards identification

· **2.1 Classification of the substance or mixture**

· **Classification according to Regulation (EC) No 1272/2008**

Acute Tox. 4 H302 Harmful if swallowed.

Acute Tox. 3 H331 Toxic if inhaled.

Repr. 1B H360FD May damage fertility. May damage the unborn child.

· **2.2 Label elements**

· **Labelling according to Regulation (EC) No 1272/2008**

The product is classified and labelled according to the CLP regulation.

· **Hazard pictograms**

GHS06

GHS08

· **Signal word Danger**

· **Hazard-determining components of labelling:**

boric acid, disodium salt

hydrofluoric acid

· **Hazard statements**

H302 Harmful if swallowed.

H331 Toxic if inhaled.

H360FD May damage fertility. May damage the unborn child.

· **Precautionary statements**

P201 Obtain special instructions before use.

P280 Wear protective gloves/protective clothing/eye protection/face protection.

P304+P340 IF INHALED: Remove person to fresh air and keep comfortable for breathing.

Version number 5

Revision: 23.01.2018

Trade name: Boraxin

Contd. of page 1)

P501 Dispose of contents/container in accordance with local/regional/national/international regulations.

**· Information concerning particular hazards for human and environment:
Reproduction and evolution:**

Studies with different animal types have shown that high doses of Borate influence the reproduction and evolution of animal species. A study on the effect of borate exposure at work has shown no negative effect on the reproduction rate of the workers. Shortly an epidemiological study and a Peer Review Report of studies in China has shown no negative effect of borate on the human reproduction. [10, 11]

Potential effects:

Big amounts of borate can cause damage to plants and other species. An output or spillage in the environment should be avoided or reduced..

· Signs and symptoms of an exposure (acute effects):

Causal exposure like swallowing or absorbing of borate in big quantities can cause, vomit, nausea, and later a reaction of the skin like irritations and peeling off by contact with borate.

· 2.3 Other hazards

Results of PBT and vPvB assessment

· **PBT:** Not applicable.

· **vPvB:** Not applicable.

SECTION 3: Composition/information on ingredients

· 3.2 Chemical characterisation: Mixtures

Description: Neutral, watery solution of borofluorides and phosphates:

· Dangerous components:

CAS: 1330-43-4 EINECS: 215-540-4 Index number: 005-011-00-4 RTECS: ED4588000 Reg.nr.: 01-2119490790-32	boric acid, disodium salt Repr. 1B, H360FD	10-25%

· SVHC

1330-43-4 boric acid, disodium salt

SECTION 4: First aid measures

- 4.1 Description of first aid measures
- General information: Immediately remove any clothing soiled by the product.
- After inhalation:

Supply fresh air and to be sure call for a doctor.

In case of unconsciousness place patient stably in side position for transportation.

- After skin contact: Immediately wash with water and soap and rinse thoroughly.
- After eye contact: Rinse opened eye for several minutes under running water. Then consult a doctor.
- After swallowing: Rinse out mouth and then drink plenty of water.
- 4.2 Most important symptoms and effects, both acute and delayed No further relevant information available.
- 4.3 Indication of any immediate medical attention and special treatment needed
No further relevant information available.

SECTION 5: Firefighting measures

- 5.1 Extinguishing media
- Suitable extinguishing agents:

Water

Carbon dioxide

Fire-extinguishing powder

Foam

The product itself does not burn.

Use fire extinguishing methods suitable to surrounding conditions.

- 5.2 Special hazards arising from the substance or mixture

Zersetzungsgefahr bei Hitzeeinwirkung.

Bei Verbrennung oder Zersetzung der Zubereitung auftretender Rauch führt zu Reizungen oder Entzündungen der Atemwege.

- 5.3 Advice for firefighters

- Protective equipment:

Wear a self-contained breathing apparatus.

- Additional information Cool endangered containers with water-spray.

SECTION 6: Accidental release measures

- 6.1 Personal precautions, protective equipment and emergency procedures Not required.

- 6.2 Environmental precautions:

Borax kann bei einer Aufnahme durch die Wurzeln Bäume oder Vegetation schädigen.

Trade name: Boraxin

(Contd. of page 3)

- **6.3 Methods and material for containment and cleaning up:**
Absorb with inert liquid-binding material (sand, diatomite, acid binders or universal binders).
- **6.4 Reference to other sections**
See Section 7 for information on safe handling.
See Section 8 for information on personal protection equipment.
See Section 13 for disposal information.

SECTION 7: Handling and storage

- **7.1 Precautions for safe handling**
Use only in well ventilated areas.
Ensure that suitable extractors are available on processing machines
- **Information about fire - and explosion protection:** No special measures required.
- **7.2 Conditions for safe storage, including any incompatibilities**
Storage:
Requirements to be met by storerooms and receptacles:
For storage purposes the applicable provisions for storing substances that are hazardous to water in compliance with the water hazard class must be complied with (e.g. WHG (Federal Water Act), VAwS (Ordinance on installations for handling water-polluting substances and on specialist companies), fire water retention directive, etc.).
- **Information about storage in one common storage facility:** Not required.
- **Further information about storage conditions:** None.
- **7.3 Specific end use(s)** No further relevant information available.

SECTION 8: Exposure controls/personal protection

- **Additional information about design of technical facilities:** No further data; see item 7.
- **8.1 Control parameters**

- **Ingredients with limit values that require monitoring at the workplace:**

1330-43-4 boric acid, disodium salt

WEL (Great Britain)	Long-term value: 1 mg/m ³
---------------------	--------------------------------------

(enthaltene Stoffe mit Grenzwert unterhalb der Berücksichtigungsgrenze - es ist jedoch eine Belastung am Arbeitsplatz nicht auszuschließen.)

- **DNELs**

1303-96-4 disodium tetraborate decahydrate

Oral	Long-term exposure - systemic effects	1.5 mg/kg kg/Tag (consumer)
	Short-term exposure - systemic effects	1.5 mg/kg kg/Tag (consumer)
Dermal	Long-term exposure - systemic effects	42,478 mg/kg (workers)
		303.5 mg/kg (consumer) (extern)
Inhalative	Short-term exposure - local effects	1,5 mg/kg kg/Tag (systemisch)
	Long-term exposure - systemic effects	22.3 mg/m ³ (workers)
		22.3 mg/m ³ (consumer)
	Long-term exposure - local effects	12.8 mg/m ³ (workers)
		6.5 mg/m ³ (consumer)
	Long-term exposure - local effects	22.3 mg/m ³ (consumer)

· 8.2 Exposure controls

· Personal protective equipment:

· General protective and hygienic measures:

The usual precautionary measures are to be adhered to when handling chemicals.

Do not eat, drink, smoke or sniff while working.

Wash hands and/or face before eating, drinking, smoking, using the toilet and at the end of work.

Use skin protection cream for skin protection.

Immediately remove all soiled and contaminated clothing

Wash soiled clothing prior to reusing it.

· Respiratory protection: Suitable respiratory protective device recommended.

· Protection of hands:

Protective gloves (classified under EN 374).

· Eye protection:

Safety glasses (DIN EN 166).

· Body protection: Protective work clothing (EN 340).

SECTION 9: Physical and chemical properties

· 9.1 Information on basic physical and chemical properties

· General Information

· Appearance:

Form:

Liquid

Colour:

light pink

· Odour:	odourless
· pH-value at 20°C:	~ 7
· Change in condition	
Melting point/freezing point:	not applicable
Initial boiling point and boiling range:	not applicable
· Flash point:	Not applicable.
· Density at 20°C:	1.2 g/cm ³
· Solubility in / Miscibility with water:	Soluble.
· 9.2 Other information	No further relevant information available.

SECTION 10: Stability and reactivity

- **10.1 Reactivity** No further relevant information available.
- **10.2 Chemical stability** Stable at environment temperature.
- **10.3 Possibility of hazardous reactions**
Reaktion mit starken Reduktionsmitteln wie Metallhydrid, Essigsäure-Anhydrid oder alkalischen Metallen erzeugt Wasserstoffgas, das zu einer Explosionsgefahr führen kann.
- **10.4 Conditions to avoid** Das Produkt ist vor Frost und Kälte zu schützen, sonst erfolgt Auskristallisation.
- **10.5 Incompatible materials:**
Kontakt mit starken Reduktionsmitteln wie Metallhydriden, Essigsäureanhydrid oder Alkaimetallen vermeiden.
- **10.6 Hazardous decomposition products:**
Im sauren Bereich oder bei Verdampfung Bildung von Fluorwasserstoff.

SECTION 11: Toxicological information

- **11.1 Information on toxicological effects**

- **Acute toxicity**
Harmful if swallowed.
Toxic if inhaled.

- **LD/LC50 values relevant for classification:**

1330-43-4 boric acid, disodium salt

Dermal	LD50	> 2000 mg/kg (rabbit)
--------	------	-----------------------

7664-39-3 hydrofluoric acid

Inhalative	LC50/1 h	342 mg/l (mouse) 1276 mg/l (rat)
------------	----------	-------------------------------------

- **Primary irritant effect:**

- **Skin corrosion/irritation** Irritant to skin and mucous membranes.

- **Serious eye damage/irritation** Irritating effect.

- **Respiratory or skin sensitisation** Based on available data, the classification criteria are not met.

- **Additional toxicological information:**

- **Development-/reproduction-toxic effects:**

Angaben zu Borsäure, Dinatriumsalz:

Tierfütterungsstudien, bei denen hohe Dosen eingesetzt wurden, haben bei Ratte, Maus und Hund Auswirkungen auf die Fruchtbarkeit und Hoden gezeigt.[2] Studien mit der chemisch verwandten Borsäure haben bei Einsatz hoher Dosen bei Ratte, Maus und Kaninchen auf die Fötusentwicklung einschließlich

(Contd. of page 6)

förmalem Gewichtsverlust und geringfügige Veränderungen am Skelett gezeigt. Die verabreichten Dosen übertrafen diejenigen, die Menschen normalerweise ausgesetzt sind, um ein Mehrfaches in Berührung kommen.[3, 4, 5] Epidemiologische Studien am Menschen zeigten keinen Anstieg von Lungenerkrankungen bei Berufspopulationen mit ständigen Exposition von Borsäurestaub und Natriumtetraboratstaub. Eine kürzlich durchgeführte epidemiologische Studie unter normaler, berufsbedingter Boratestaub-Exposition zeigte keine Auswirkung auf die Fruchtbarkeit.

· **Other information:**

Für dieses Produkt liegen weder experimentelle Daten noch Erfahrungen aus der Praxis oder Ergebnisse des konventionellen Rechenverfahrens vor.

· **CMR effects (carcinogenicity, mutagenicity and toxicity for reproduction)**

· **Germ cell mutagenicity** Based on available data, the classification criteria are not met.

· **Carcinogenicity** Based on available data, the classification criteria are not met.

· **Reproductive toxicity**

May damage fertility. May damage the unborn child.

· **STOT-single exposure** Based on available data, the classification criteria are not met.

· **STOT-repeated exposure** Based on available data, the classification criteria are not met.

· **Aspiration hazard** Based on available data, the classification criteria are not met.

SECTION 12: Ecological information

· **12.1 Toxicity**

· **Aquatic toxicity:**

· **Acute fish toxicity:**

7664-39-3 hydrofluoric acid

LC50/96 h (static)	164.5 mg/l (<i>Oncorhynchus mykiss</i> (rainbow trout))
--------------------	--

1303-96-4 disodium tetraborate decahydrate

LC50/96 h	79.7 mg/l (<i>Pimephales promelas</i> (fathead minnow)) (Soucek et al., 2010) als B/l oder 703 mg Dinatriumtetraborat-Decahydrat/l
-----------	--

[8]

· **Acute daphnia toxicity:**

1303-96-4 disodium tetraborate decahydrate

EC50 (48 h)	133 mg/l (<i>Daphnia magna</i> (water flea)) (Gersich, 1984a) als B/l oder 1,173 mg Dinatriumtetraborat-Decahydrat/l
-------------	--

[7]

· **Algae toxicity:**

1303-96-4 disodium tetraborate decahydrate

EC50 (72 h)	40 mg/l (<i>Pseudokirchneriella subcapitata</i>) (Hansveit und Oldersma, 2000) Biomasse als B/l oder 353 mg Dinatriumtetraborat-Decahydrat/l.
-------------	--

[6]

· **12.2 Persistence and degradability**

Bor kommt in der Natur überall vor. Borax zerfällt in der Natur zu natürlichem Bor.

· **12.3 Bioaccumulative potential** No further relevant information available.

· **12.4 Mobility in soil** No further relevant information available.

· **Ecotoxicological effects:**

· **Remark:**

Boron kommt in Meerwasser vor, mit einer durchschnittlichen Konzentration von 5 mg B/l und in Süßwasser mit 1 mg B/l oder weniger. In verdünnten, wässrigen Lösungen handelt es sich bei der vorherrschenden Borart um undissozierte Borsäure.

Bei Bor handelt es sich im Grunde um einen Spurennährstoff für das gesunde Wachstum von Pflanzen, jedoch (Contd. on page 8)

(Contd. of page 8)

* **SECTION 15: Regulatory information**

- **15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

Es ist zu beachten, dass Borate unter normalen Handhabungs- und Nutzungsbedingungen sicher sind und wichtige Nährstoffe für Pflanzen darstellen. Untersuchungen haben außerdem gezeigt, dass sie eine positive Rolle für die menschliche Gesundheit spielen. Die CLP-Einstufung beruht ausschließlich auf Tierversuchen, bei denen Tiere über längere Zeit hohen Dosen von Borsäure ausgesetzt waren. Diese Dosen waren um ein Vielfaches höher als die, denen der Mensch unter normalen Handhabungs- und Nutzungsbedingungen ausgesetzt ist. Folglich wurde von der Europäischen Kommission eine vorsorgliche Entscheidung getroffen.

- **Directive 2012/18/EU**

- **Named dangerous substances - ANNEX I** None of the ingredients is listed.

- **Qualifying quantity (tonnes) for the application of lower-tier requirements** 50 t

- **Qualifying quantity (tonnes) for the application of upper-tier requirements** 200 t

- **REGULATION (EC) No 1907/2006 ANNEX XVII Conditions of restriction:** 3

- **National regulations:**

- **Other regulations, limitations and prohibitive regulations**

Besonders besorgniserregender Stoff (SVHC) gemäß REACH, Artikel 57

Clean Air Act (Montreal Protocol)

Borax wird nicht mit Ozon abbauenden Stoffen der Klasse I oder II hergestellt und enthält auch nicht solche Stoffe.

EU-Verordnung REACH

Dinatriumtetraborate sind in der Kandidatenliste der besonders besorgniserregenden Stoffe (SVHC) für eine eventuelle Aufnahme in Anhang XIV der Verordnung 1907/2006 ("Zulassungsliste") aufgeführt.
(18.06.2010- ED/30/2010).

- **Directive 96/82/EC on the control of major-accident hazards involving dangerous substances**

1330-43-4	boric acid, disodium salt
-----------	---------------------------

- **15.2 Chemical safety assessment:** A Chemical Safety Assessment has not been carried out.

SECTION 16: Other information

This information is based on our present knowledge. However, this shall not constitute a guarantee for any specific product features and shall not establish a legally valid contractual relationship.

Do not represent a warranty of characteristics of the described product(s) in a legal sense.

The material safety data sheet is based on data that were accurate as of the date of its preparation. Despite the measures taken by us it might be possible that the data are not up to date or do not correspond to special situations. We are not liable for possible damages or injuries resulting from an inappropriate use, from errors occurring after a correct use or from hazards which are inherent to the product.

- **Relevant phrases**

Full wording of the R-phrases, presented in short form in this safety data sheet. The labelling of the product is indicated in section 15.

H290 May be corrosive to metals.

H300 Fatal if swallowed.

H310 Fatal in contact with skin.

H314 Causes severe skin burns and eye damage.

H330 Fatal if inhaled.

H335 May cause respiratory irritation.

H360FD May damage fertility. May damage the unborn child.

H400 Very toxic to aquatic life.
